SCOTCH MALT WHISKY SOCIETY (SMWS) BOTTLINGS

All SMWS whiskies are bottled at cask strength and are not subjected to chill filtration or any other interference so that the dram can be enjoyed as if it were straight from the cask.

Founded in Edinburgh in 1983, SMWS has a unique code system where the first number refers to the distillery and the second refers to the cask from which the bottle comes. The whiskies also receive a name which seeks to describe the malt when tasted by the SMWS Tasting Panel.
